

**Guidelines for scholarship supplements for doctoral students  
belonging to the Centre of Excellence AstroChem for the year 2021.**

(pursuant to the Rector's order No. 163 of 19 August 2020)

1. The supervisor or scientific advisor of the doctoral student shall apply for the scholarship supplement by submitting an application available on the website of the AstroChem Centre.
2. The application shall be assessed by the Director of the Centre in consultation with the Scientific Council of the Centre taking into account the availability of funds, the opinion of the supervisor and the scientific achievements of the doctoral student.
3. Students in years 1-4 shall be entitled to the scholarship supplement.
4. Scholarship supplements shall be awarded for a period of up to 12 months.
5. Doctoral students who do not have any scholarship or who have only a basic scholarship shall be given priority for the scholarship supplement.
