TASQ micro-symposium

30th April 2020

12:00 [Warsaw Time]

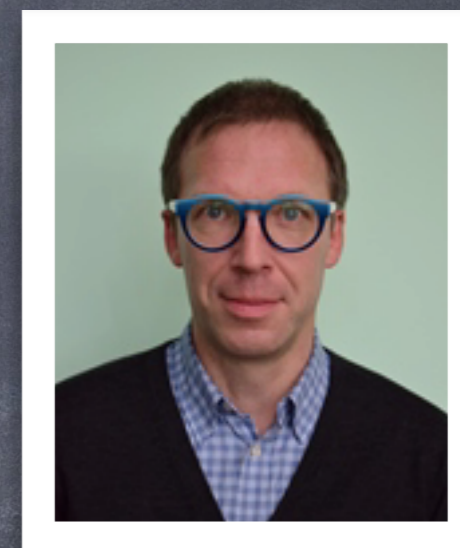

Prof. Nimrod Moiseyev (Technion, Haifa)

Observable physical phenomena that can ONLY
be interpreted and predicted
via non-Hermitian quantum mechanics.

1:00 PM

Prof. Jan Franz (Technical University, Gdansk)

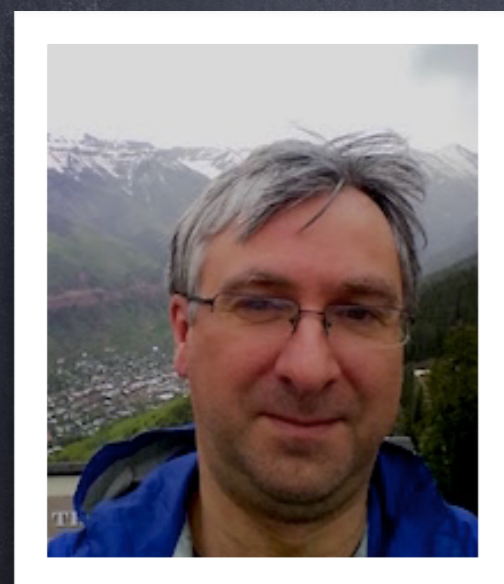

R-matrix method for electron and positron
collisions with molecules

2:00 PM

Prof. Jacek Klos (University of Maryland, Temple University)

Modeling and control of molecular collisions:
From cold matter to astrochemistry
